

Note:

By default, when we open Firefox, it's automatically trying to connect to the internet and download the updates.

Mozilla Firefox is a free and open source web browser descended from the Mozilla Application Suite and managed by Mozilla Corporation. Bringing together all kinds of awesomeness to make browsing better for you. As of January 2012, Firefox has approximately 25% of worldwide usage share of web browsers, making it the second or the third most widely used browser, according to different estimates. The browser has had particular success in Germany and Poland, where it is the most popular browser with 52% usage and 45% respectively.
